

NCR Pulse Real-Time

Want access to actionable information at your fingertips?

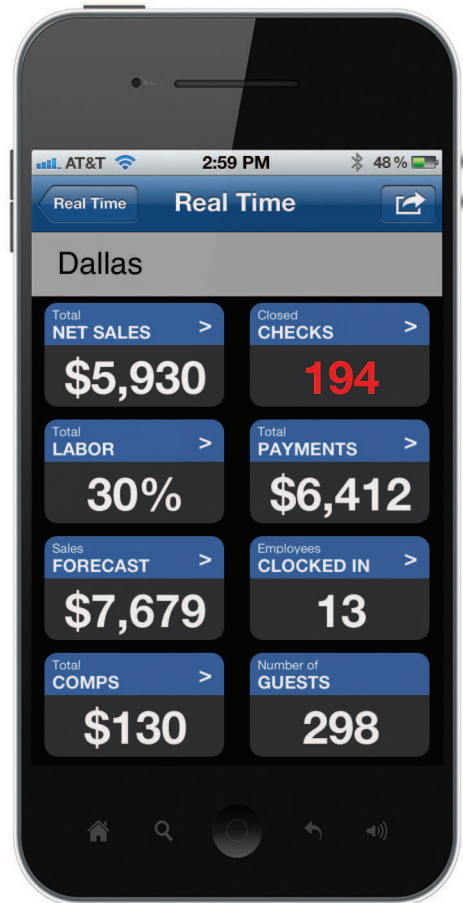

Pulse Real-Time delivers actionable, operational information to a user's smart phone in real-time. Now operators can know exactly what is going on in the business, regardless of where they are. By turning data collected from the POS system into actionable information and delivering it to their fingertips, Pulse Real-Time helps operators make insightful and immediate decisions that directly impact the bottom line.

Results Matter.

Use Pulse Real-Time to create more hours in the day and effectively manage your business when away from the office. Pulse Real-Time delivers up-to-the-minute operational measurements, including:

- Net sales by hour, day part, category and order mode
- Labor dollars and percentage by job code
- Comps and voids
- Employee performance
- Payment details
- And many more...

Rather than waiting for end-of-day or shift reports, users can let Pulse Real-Time provide them with instant, actionable information and alerts that keep them in-the-know and more responsive for their part of the business.

- ✓ Access metrics from your mobile device— anytime, anywhere
- ✓ Engage and connect with employees
- ✓ Monitor your brand's social identity and customers' satisfaction
- ✓ Be responsive to the whole business, whether on or off property
